PROFESSIONAL SUMMARY

Software Engineer with **4.5+ years** of experience designing and scaling **full-stack** applications across web and mobile platforms. Specialized in .NET ecosystem (**ASP.NET Core, Blazor**), modern frontend frameworks (**React, NextJS, Angular**), and relational databases. Proven track record in enterprise ERP systems, legacy application modernizations for Japanese clients, and scalable architecture.

EDUCATION

BSc in Software Engineering

University of Dhaka

Dhaka, Bangladesh

CGPA: 3.47 / 4.00 | (2018 - 2021)

LANGUAGE PROFICIENCY

- **Japanese:** Intermediate
NAT-TEST 3Q (JLPT N3 Equivalent)
- **English:** Professional Working Proficiency
- **Bangla:** Native
- **Hindi / Urdu:** Fluent (Spoken)

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, Dart, Java, C++, PHP

Frontend & Mobile: Blazor, NextJS, React, Angular, Flutter, Android

Backend: ASP.NET Core (MVC, Web API), NodeJS

Databases: PostgreSQL, MSSQL, MySQL, MongoDB, Firebase

Tools & Testing: Git, Docker, Azure, Jira, FastReport, Selenium

PROFESSIONAL EXPERIENCE

BJIT Ltd

Dhaka-1212, Bangladesh

Software Engineer

(August 2025 - Present)

Tech: ASP.NET Core, Blazor, PostgreSQL

• Reamsシステム

Japan-based client project for migrating a legacy system to a modern web application using Blazor.

Responsibilities:

- Developed responsive **Blazor UI components** for migrating legacy Java application screens.
- Recreated legacy Java screens as **modern, responsive web interfaces** using Blazor.

• 医薬品在庫管理システム

Japan-based client project for migrating a VB6 PC apps to a modern web application using Blazor.

Responsibilities:

- Developed application features using **Blazor** for migrating the legacy VB6 application.
- **Implemented UI, business logic**, and **PostgreSQL database** operations using Blazor.

LoneSock

Dhaka-1000, Bangladesh

Software Engineer

(April 2025 - July 2025)

Tech: ASP.NET Core, NextJS, PostgreSQL

• Boooks.Net

An international marketplace for buying and selling rare, vintage, valuable, and collectible items.

Responsibilities:

- Designed the **application architecture** and established the **project structure** from scratch.
- Implemented the user **authentication module**, including login functionality.

Orion Informatics Ltd

Dhaka-1205, Bangladesh

(January 2022 - March 2025)

3 years 3 months

Software Engineer

(December 2023 - March 2025) - 1 years 4 months

Tech: ASP.NET Core, MSSQL, Fast Report

Junior Software Engineer

(July 2022 - November 2023) - 1 years 5 months

Tech: React, ASP.NET Core, MSSQL, Fast Report

Software Engineer Intern

(January 2022 - June 2022) - 6 months

Tech: Angular, Blockchain

• Bangladesh Power Division ERP

Enterprise ERP system for Power Division operation, inventory management and performance tracking.

Responsibilities:

- Developed **Inventory Management**, **Performance Appraisal**, and **Plant Management** modules, translating operational requirements into **scalable** ERP solutions.
- Built and integrated **full-stack features across frontend, backend APIs, and database layers**, ensuring reliable data flow and seamless module integration.
- Designed and implemented **dynamic reports using FastReport** for data analysis, visualization, and performance monitoring.

• Identity Protection

A US-based client project focused on workflows, reusable React components, and user experiences.

Responsibilities:

- Resolved **UI bugs** and **frontend issues**, while refactoring React components to improve code readability, structure, and maintainability.
- Reduced **code redundancy** and **streamlined page** implementations, improving overall code quality and making the application easier to maintain and extend.

• Power Division ERP Dashboard

Management dashboard for visualizing Power Division ERP data, operations and performance insights.

Responsibilities:

- Contributed to ERP dashboard UI development with interactive **Chart.js** visualizations.

ACADEMIC AND PERSONAL PROJECTS

- **Cricket Live Streaming with Live Score [Flutter, React, ASP.NET Core, Firebase]**
Stream live cricket matches on a website with real-time scores and match history. Three Android devices manage video, commentary, and score updates, all integrated via web apps.
- **LikeHome.Care [Flutter, Firebase]**
An in-home daycare service where caregivers register to provide their services, and busy parents can find the nearest home caregiver to take care of their children throughout the day.
- **Tutors Planet [Android(Java), Firebase]**
An Android app helping guardians find tutors, with student management features for tutors.
- **Attendance Management System [Angular, ASP.NET Core, MSSQL]**
Admin portal for managing courses, teachers, students, live attendance, and announcements.
- **Stocker.io [Angular, Django]**
A stock market and data website, it provides financial analysis, research, and data visualization.
- **Prescription Management System [Angular, ASP.NET Core, MSSQL]**
This website helps doctors track patient history, create prescriptions, and manage medications.
- **Library Management System [Angular, Laravel, MSSQL]**
A website for managing book circulation and maintaining library member records.

ACHIEVEMENTS & ACTIVITIES

Achievements

- Champion, **HackTheVerse** - A nationwide hackathon Contest (DU ITVerse-2020).
- Secured 4th place in an IT-based business idea contest at **5th DUITs Robi National Campus IT Fest 2018**.

Competitive Programming & Technology

- Solved **300+ programming problems** across Codeforces, LeetCode, and URI Online Judge.
- Participated in competitive programming competitions organized at the University of Dhaka.

Leadership & Event Organization

- Organized TechCrunch 2.0, ITPL-2019, IIT Futsal-2019, and IIT Badminton Tournament-2020.

Sports

- Represented **IIT-DU** and **BJIT Ltd** in football as a goalkeeper and cricket as an all-rounder.
